SUMMARY

Seeking Data Annotation role with 5 years' experience in precise data labeling for machine learning. Skilled in implementing quality control, collaborating with cross-functional teams, and enhancing dataset reliability. Proven ability to develop annotation strategies and maintain high data standards.

WORK EXPERIENCE

Appen
Data Annotation Specialist   Jun 2021 - Present

- Annotate and label datasets to support machine learning projects, focusing on accuracy and relevance.
- Enforce quality control measures to uphold high standards for data integrity.
- Work alongside engineers and data scientists, providing insights for process enhancements based on project requirements.

TrainingData
Associate Data Annotator   Jan 2019 - May 2021

- Executed comprehensive annotation and labeling of diverse data types with a focus on precision and detail.
- Upheld high data quality standards by conducting routine evaluations to improve dataset integrity.
- Participated actively in collaborative discussions to refine annotation methodologies and effectively documented all processes.

EDUCATION

Moi University   Eldoret
Bachelor of Science, Computer Science   May 2019

CERTIFICATIONS

Machine Learning Specialization, Coursera   Dec 2020

SKILLS

Annotation Tools: Labelbox, SuperAnnotate, CVAT, VGG Image Annotator • Data Types: Image, Text, Audio, Video • Programming Languages: Python, SQL, R • Quality Control: Attention to Detail, Consistency Checks, Accuracy Validation • Collaboration: Teamwork, Communication With Data Scientists and Engineers • Documentation: Annotation Guidelines, Process Documentation
